

Mother's Day Pocket Card

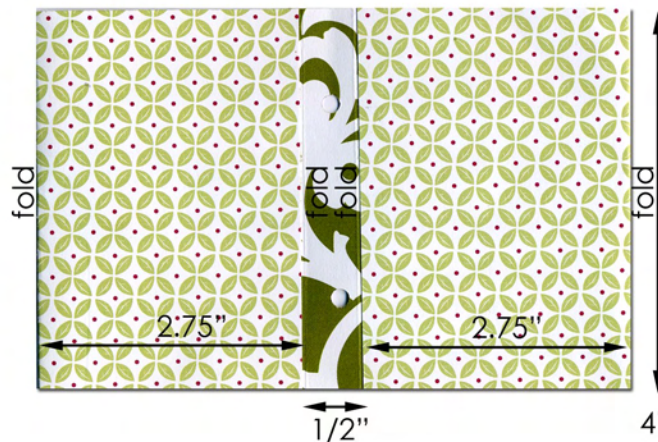

designed by Alexandra Sirugue-MacLeod

Step One: Make the cover from clear frame with green glitter inner border.

Set two eyelets as shown, each 2" from top/bottom edge of clear frame.

Come in just slightly under 3" from OUTER edge of green glittered border on frame; score and fold as shown (there should be just over a half-inch for the spine).

Step 2: Make the pages
a. Cut three pieces of patterned paper, 4" x 11.5"

b. Holding the strip with the main pattern face down, score and fold inwards 2.75" from each edge as shown. You want the center piece to be a half-inch. Score and fold where the flaps end.

c. Alternately, you can make a fold 5.5" from each edge, and then fold the flaps in to meet the spine folds.

d. Make two more pages in this manner (see instructions for patterns used in sample).
e. Apply adhesive to bottom and outer edges of each flap and adhere to create two pockets with the opening at top.
f. Using the cover as a guide to place the holes, punch two holes in each page's spine for binding.

Page One: Front

Punch notch for inserts with hole punch [or hand cut]. Use first notch as a template to punch notch on left hand pocket; use page one as a template for remaining pages.

Peacock epoxy sticker.

'Mom' fabric sticker, trimmed to fit.

'Celebrate' epoxy sticker

Mother's Day Pocket Card

designed by Alexandra Sirugue-MacLeod

Page One: reverse side

Add photos as shown; accent with rub ons and self adhesive jewels.

Page 2: outside

Add photos as shown; accent with jewels/rub ons if desired. Punch a pink and a green tab (from patchwork specialty paper) using hand punch (or die cut or trace from a template). Holding the page with the outside up, adhere the pink tab to the top right hand edge and the green tab on the lower left edge.

Page 2: reverse side

Page 3: outside

Add photos to page three front/back as shown. Punch a purple and yellow patterned tab from patchwork paper; holding page with outside up, adhere yellow to right hand edge of page, approximately one-quarter inch from top. Adhere purple tab to left hand edge, one-quarter inch from bottom.

Page 3: reverse side

Cut six 4.25" x 1.5" tags from patterned paper of your choice. Print or write your text on white paper and adhere to fronts/backs of each tag. Add a chipboard sticker piece [circle or flower] to front of each tag and insert into page pockets.

In this sample, Alexandra focuses on thanking her mom for things she's done for her [taught her to bake, encouraged her to travel, etc] and the photos on each pocket represent the text on the tag. You can do a similar book for a grandmother from grandchildren, or even just use inspirational quotes instead of your own text.

To finish book, stack the pages one inside another page one on the outside and three on the inside]. Bind to clear cover using ribbon and tie into a bow.

Mother's Day Pocket Album
